ULTRASOUND ABDOMEN AND PELVIS

- Liver normal in size with uniformly homogenous echotexture. No focal area of altered echogenicity. No intrahepatic biliary dilatation.
- Gall bladder physiologically distended with normal wall thickness. No calculi.
- CBD and portal vein normal.
- Pancreas shows normal echotexture, no mass.
- Spleen normal.
- Both kidneys normal in size and smooth in outlines. Right inferior calyx calculi measuring 5.9 mm. No renal calculi on left side. No hydronephrosis seen on either sides. Renal cortical texture normal, cortico-medullary junction sharp. Renal cortical thickness adequate on both sides.
 - Rt. kidney- 9.69 x 3.83 cm
 - Lt. kidney- 9.81 x 4.17 cm
- No ascites. No lymphadenopathy.
- Iliac fossa clear.
 - Bladder well distended with smooth outlines. Wall thickness normal. No vesical calculi. No calculi seen at both vesico-ureteric junction. No growth. Postvoid residual urine insignificant.

PELVIS:- (TAS) Uterus anteverted, normal sized, smooth in outlines. The myometrium and endometrial texture normal. The endometrial cavity empty. The uterocervical length 8.82 x 4.49 x 3.27 cms.

- Both ovaries normal in size and echogenicity with small follicles. No cyst. No mass.
- No adnexal mass.
- No free fluid in cul-de-sac.

OPINION:- Right non obstructive renal calculi.
